PATHURI NAGANJANEYA REDDY

Chennai, Tamilnadu | +919493188635 | naganjaneya.pathuri@email.com

Professional Summary

Strategic, Dedicated and results-driven Automation Test Architect with 15+ years of comprehensive experience in software quality assurance and automation testing. Expertise in designing and implementing robust automation frameworks (**Page Object Model, BDD, Hybrid**) from scratch using **Selenium WebDriver, Java**. Proven track record of leveraging CI/CD pipelines (Jenkins) to reduce regression testing time by up to 70% and improve defect detection rates by 40%. Expert troubleshooter for short- and long-term system issues and malfunctions. Adept at leading cross-functional teams, mentoring junior engineers, and driving continuous improvement initiatives in Agile environments.

Core Competencies & Technical Skills

- **Automation Tools:** Selenium WebDriver/Grid, Cucumber (BDD)
- **Programming Languages:** Core Java, Basic Python, SQL, HTML, CSS
- **Frameworks & Methodologies:** POM, Data-Driven, Keyword-Driven, Hybrid Frameworks, Agile implementation using Asana, Risk-Based Testing
- **CI/CD & Version Control:** Jenkins, Maven, Git, SVN
- **Test Management & Bug Tracking:** TestNG. Bugzilla
- Implement, gather, and report team and project metrics which demonstrate business value and showing continuous improvement in the QMS environment.
- Around 5 years of experience in **ISO 9001** implementation of the entire organization.
- Soft Skills: Leadership, Analytical Thinking, Problem-Solving, Stakeholder Management, Mentoring, Cross-Functional Collaboration

Work Experience

Senior Automation Test Engineer| **QDXSOFT Solutions/NED Technologies**, Chennai, Tamilnadu| *Mar 2022 – 31-Dec-2025*

- Led a team in designing and implementing test automation strategies.
- Architected an AI-powered framework using Selenium, significantly reducing regression time and increasing defect detection.
- Spearheaded Shift-Left testing, integrating automated security and performance testing into CI/CD.
- Mentored junior engineers on best practices.

Quality Lead - Projects | **QDXSOFT Solutions**, Chennai, Tamilnadu | *April 2010 – May 2017*

- Implement a **Quality Management System** (QMS) into all departments and ensure its ongoing efficiency.
- Provide **reports** on how the system can be improved.

- Organize **quality management meetings** with superiors and department heads to determine the best way to run each department.
- Perform testing of **customer satisfaction** and/or **complaints** regarding each **service** or **product**.
- **Interpret test results** in order to resolve issues within each department.
- **Monitored** each department to ensure the adherence to ISO 9001 requirements.
- Filed updated and maintained all **paperwork** related to ISO Management.
- Seek ways to improve **financial efficiency** of the **quality management system**.

Senior Software Test Engineer (Manual) | **Naturesoft Solutions.**, Chennai, Tamilnadu | *May 2005 – Mar 2010*

- **Reviewing** and **analysing** business requirement documents and technical specifications to ensure they are precise and accurate for testing, and to involve implementation of **test plans** and implement **test cases** in **Bugzilla**.
- Developed and executed test related documentation including **plans**, **processes**.
- Developed test schedule and **Work Breakdown structure (WBS)**, and assigned resources to the project tasks as a part of project planning.
- Reviewed all test cases and scenarios prepared by junior test engineers to ensure they will adequately cover the system requirements and business process flows by creating **Requirement Traceability Matrix (RTM)**.
- Understanding and Analysing the application under test in terms of object identification
- Creating test scenarios and collecting test data
- Identifying end to end scenarios and modularity
- Provided **defect** and **test status** reports to the project management team periodically.
- Managed implementation and maintenance of the testing effort as a part of the regression test.
- Communicated effectively with project team members, stakeholders and made recommendations to the management on process and test approach.
- Provided an assessment of overall customer readiness of the application functionality to the management

Test Engineer (Manual) | **Sajeusab Software Solutions.**, Hyderabad, Telangana | *Aug 2004 – Apr 2005*

- Analyzing the specification document and writing the **Test Cases**.
- Conducted **manual testing** for **Functional**, **Integration** and **Regression** testing.
- Executed **test cases** manually to verify the **system functionality** as per **user requirements**.
- Interacted with the development **team** in recreating bugs.
- **Tracking** and **Reporting** Bugs using **Bugzilla** tool.

Education & Certifications

- **Master of Computer Application** (MCA), Madras University, Tamilhadu, India | *1998 - 2001*
- **Bachelor of Science (Computer Science)**, Nagarjuna University, Andhra Pradesh, India| *1994 - 1997*
- **ISO 9001-2015** Certified Lead Auditor**.**
